

Getting through this crisis together.....

To all our clients,

Like so many of you over the last few weeks, we have spent learning about the Coronavirus (COVID-19) and how it's impacting our world. Most recently our local surrounding communities in Westchester.

We want to help to keep you and your families safe during this time. We have our employees thoroughly wiping down all cleaning related equipment that is coming into your homes. As well, as making sure our crew uses gloves and/or washing their hands before and after the cleaning process. Any employee that has been sick has been told to stay home for the appropriate 14 day time frame. We are taking all precautions that have been shared by the CDC (Centers for Disease Control).

Our work truck, our offices, and our warehouse are cleaned daily with the proper sanitizing methods. Which we have done daily throughout our time in business.

As this situation is still influx we can guarantee that your health is our main priority. If you have any questions about disinfecting and sanitizing your home and/or business please feel free to give us a call at 914-776-2269 and we will gladly advise you.

Our main priority is to keep you and your families healthy. Our heartfelt thoughts are with those who are directly affected by this situation.

Sincerely,

Ray Caggiano, Angela Arancio, & The entire Raytone Staff

P.S. If you have an emergency, call us. We're here for you. And when this is over, we're here to help you clean up after being cooped up during this time. You can make an appointment now
